SUMMARY

Full-Stack Developer experienced in building scalable web applications using React.js, Java Spring Boot, Node.js, and MySQL. Skilled in REST APIs, RBAC, real-time systems, and AI integration with a focus on high-performance, production-ready solutions.

EDUCATION

DIMR, Dnyansagar Institute of Management and Research, Pune **2024 – 2026**
MCA - Master of Computer Applications *Pune, Maharashtra*

Savitribai Phule Pune University **2020 – 2023**
BBA (Computer Applications) – CGPA: 8.5 *Pune, Maharashtra*

EXPERIENCE

Intern – Software Development | SETTribe LLP **Jan 2026 – Present**
On-site *Pune, Maharashtra*

- Developed **3 full-stack web applications** (meeting planner, temple trust management, hair salon booking) using **React.js, Java Spring Boot, REST APIs, and MySQL** from SRS to deployment.
- Implemented **RBAC** for 6+ user roles with session management and protected routing; integrated **QR** payment gateway, barcode generation, WhatsApp/SMS alerts, and Excel/PDF export — boosting efficiency by **~40%**.
- Built **15+ CRUD modules** with real-time DataTables, auto GST calculation, multilingual UI (English + Marathi), and reusable React components — reducing redundant code by **~30%**.

PROJECTS

SmartResume | React.js, Node.js, Express.js, MySQL, Groq LLM | GitHub **2026**

- *AI-Optimized Resume Builder & Job-Hunting Suite* — Architected a **secure server-side AI routing bridge** using Express.js and Groq (Llama 3.3 LLM) for real-time **ATS score matching**, keyword gap analysis, and AI-generated cover letters; eliminated client-side API key exposure via server-side middleware.
- Engineered **1-second debounced Zustand state sync** reducing MySQL write traffic by **85%**; built drag-and-drop **Kanban Job Tracker** and dynamic **PDF layout engine** using @react-pdf/renderer for ATS-friendly exports.

RideFusion | React 19, Java Spring Boot, WebSocket, MySQL, Leaflet API | GitHub **2026**

- *Peer-to-Peer Car Rental & Ride-Sharing Platform* — Built **role-based dashboards** for 4 user types (Travelers, Fleet Providers, Hosts, Admins) with **Spring Boot REST APIs**, Hibernate ORM, and Spring Data JPA; implemented **Admin Listing Review Pipeline** with multi-state transitions (Approved/Pending/Rejected).
- Integrated **real-time WebSocket chat and live vehicle tracking** via STOMP/SockJS with **Leaflet GIS Maps**; built a full **Support Ticketing System** with notifications; resolved React rendering loops using **useCallback** and memoization.

TECHNICAL SKILLS

Frontend & Languages: React.js, Axios, React Router DOM, HTML5, CSS3, Bootstrap, JavaScript, Java, SQL

Backend & APIs: Spring Boot, Node.js, Express.js, REST APIs, WebSocket, SockJS, JWT, bcryptjs

Database & ORM: MySQL, Hibernate ORM, Spring Data JPA

Tools & Libraries: Git, GitHub, VS Code, Docker, Spring Tool Suite, Eclipse, Maven, Leaflet Maps API
